

THE HIMALAYAN VENTURES
TRADING LLC

GRANITE | MARBLE | SANDSTONE
SLATE | QUARZITE

A **strong foundation** requires clear vision, achievable goals, and resilience.

Established in 1990, our company began with a clear mission - to deliver high-quality natural stone products that meet global standards. From humble beginnings in the Indian domestic market, we have steadily grown into a leading name in the international stone industry. Today, we proudly stand as a Government of India-recognized Export House, known for our focus on quality, reliability, and long-term partnerships.

Strong infrastructure for sustainable development

Over the years, our name has become synonymous with trust, consistency, and professional service. Our journey has been built on strong business ethics, attention to detail, and a deep understanding of the natural stone industry. Global Expansion In 1995, we entered the global market by exporting to the Middle East, a region known for its premium demand and architectural excellence. Our materials were well-received for their natural beauty, uniformity, and durability - setting the stage for our international growth. Since then, we have established a strong presence across multiple regions including the USA, Europe, Turkey, North Africa, Southeast Asia, and Middle East Asia. Our export operations are supported by a dedicated logistics and documentation team, ensuring smooth and timely delivery of materials worldwide.

Commitment to Quality & Sustainability

Every slab or tile that leaves our factory goes through a strict multi-point quality control process to ensure color consistency, thickness accuracy, and flawless surface finish. We believe in building lasting value - not just delivering material. As a responsible manufacturer, we are also committed to sustainable production.

Our facilities are equipped with:

Water recycling systems,
Dust and waste management protocols,
Solar energy adoption in phases,
Green compliance audits.
This ensures we reduce our environmental impact while delivering top-tier products to our customers.

Infrastructure & Machinery

To meet growing global demand and ensure consistent quality, we have invested in advanced manufacturing infrastructure. Today, we operate three fully functional production units across India. These units are strategically located near key quarrying belts, giving us access to a wide range of raw materials and reducing transportation costs and lead times.

Our manufacturing facilities are equipped with a full range of modern machinery, including:

Wire Saws - for accurate and clean block cutting.

Gang Saws - for high-volume slab production.

Multi Blade Cutters - for faster processing of large quantities.

Bridge Cutters - for customized cutting and profiling.

Resin Lines - for strengthening and enhancing surface quality.

Polishing Machines - for achieving high gloss and uniform polish.

Edge Cutting Machines, Calibrating Units, and other specialized equipment for precision work.

This setup allows us to produce materials in various finishes (polished, honed, leathered, flamed, bush-hammered) and formats (tiles, slabs, cut-to-size, customized designs) as per the needs of global clients.

Looking Ahead

As we move forward, our focus remains on modernization and market responsiveness. We are currently expanding into:

Digital inventory and selection tools.
CAD-based stone layout planning.
AI-powered surface inspection systems.
New materials and finishes based on global trends.

With over three and a half decades of industry experience, we are not just a supplier - we are a reliable partner, committed to supporting your projects from concept to completion.

PRODUCT Range

We offer a wide and diverse selection of stones, sourced from different parts of India and processed to meet the demands of architects, interior designers, developers, and government bodies.

Our product categories include:

Granite - in a wide spectrum of colors, textures, and finishes

Marble - including both Indian and imported varieties with elegant veining

Sandstone & Limestone - ideal for both interiors and exteriors

Quartzite - valued for its strength and unique surface patterns

Engineered Stones - including quartz surfaces suitable for countertops and high-use areas

Let our legacy,
scale, and
technology
become a part
of your vision.

With clients in over 30 countries, we have built long-term relationships with:

Global distributors.
Real estate developers.
Contractors & builders.
Interior designers & architects.
Government agencies & public project consultants.

Many of our partners have been working with us for over two decades - a reflection of our focus on consistent service and mutual growth.

Certificate of Compliance

This is to certify that the technical documentation/inspection/test results comply with the requirement of General product safety directive (GPSD) = 2001 / 95 / EC manufactured by:

NAME: THE HIMALAYAN VENTURES TRADING LLC
ADDRESS: OFFICE NO- 9, 35TH FLOOR, AL SAQH BUSINESS TOWER, SHEIKH ZAYED ROAD, DUBAI, UAE
SCOPE: IMPORT, EXPORT, MARKETING AND SALES OF SLATE STONE
PRODUCTS: NATURAL HIMALAYAN SLATE STONE.

COMPLY WITH THE REQUIREMENTS APPLICABLE TO IT

The Certification Body has performed an independent audit of the above product quality system covering the design, manufacture and final inspection of the certified product. The quality system has been assessed, approved and is subject to continuous surveillance according to the General product safety directive (GPSD) = 2001 / 95 / EC

THIS CERTIFICATE IS ISSUED UNDER THE FOLLOWING CONDITIONS:

1. It applies only to the quality system contained in the manufacture of above referenced models and it does not substitute the design or type-examination procedures, if requested.
2. The certificate remains valid until the manufacturing conditions or the quality system are changed.
3. The certificate validity is conditioned by positive results of surveillance audits.
4. After fulfilling the relevant EU legislation, the manufacturer shall affix to each device, of the above referenced models.
5. The CE mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC Declaration of conformity and compliance with all relevant EC Directives. The statement is based on a single evaluation of one sample of above mentioned product. It does not apply an assessment of the whole production.

Certification Calendar:

Client Id: 53304

Certificate No: CU-57182/1025

Initial Registered Date: 29.10.2025

Date of Expiry: 28.10.2028

1st Surv. Due: 28.10.2026

Issuance Date: 29.10.2025

2nd Surv. Due: 28.10.2027

[Signature]

Authorized Signatory

Validity of this certificate is subject to annual surveillance audits to be done successfully, on or before 285 days from date of the certificate.
This certificate remains the property of PQC & shall be returned immediately upon request.

South Indian Granites

South Indian granite is renowned for its exceptional strength, vibrant colors, and fine-grained texture. Quarried from some of the oldest rock formations, it offers unmatched durability and resistance to wear, making it ideal for both interior and exterior applications. Its natural beauty and consistent quality have made it a preferred choice in global markets.

Marble

Indian marble is renowned for its breathtaking beauty and enduring elegance, making it a premier choice for architectural and decorative applications. Its distinctive veining patterns, luminous appearance, and rich textures create a visual spectacle that is simply unmatched. Whether you're looking for classic Makrana marble or the dramatic Shalimar, Indian marble offers a diverse range of options to cater to various tastes, styles, and design preferences. Its versatility and sophistication make it perfect for creating stunning interiors, grand exteriors, and iconic landmarks.

Sandstones

Sandstone is a popular natural stone known for its warm, earthy tones and unique texture. It is available in various finishes, from honed and polished to natural and weathered. Sandstone is a versatile material used in many applications, from flooring and walls to decorative features and outdoor landscaping. With its natural beauty and rich texture, sandstone adds a touch of elegance and sophistication to any space, creating a warm and inviting atmosphere. It's perfect for homes, offices, and outdoor areas alike.

Quartz

countertops have become super popular as a go-to material for kitchen and bathroom surfaces, due to their versatility and longevity. Here's why they're awesome:

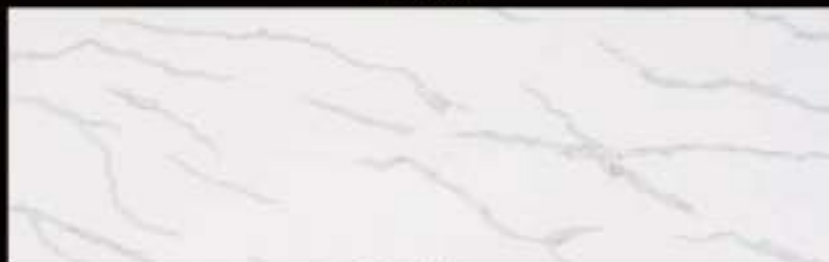

Durability: Quartz countertops are made by combining natural quartz crystals with resin binders, making them super tough and resistant to chips, cracks, and scratches. They're perfect for high-traffic areas like kitchens.

Low Maintenance: Quartz countertops are non-porous, so spills won't stain like they would on natural stones like granite or marble.

Variety of Colors and Patterns: Quartz countertops come in a ton of colors and designs, often mimicking the look of natural stones like marble or granite. You can pick a style that matches your interior décor and aesthetic tastes.
